# Handcrafted Soaps

The best in their pure group

## Soap Bars

Your skin protects your body, shouldn't you do the same for your skin? Naturally glycerin-rich, our soaps gently cleanse the skin without stripping away its essential, natural oils. Using the time-honored "cold-kettle" method, we handcraft our soap in small batches using:

A base of olive oil, coconut and palm oil. Fine fragrance and aromatherapy-grade pure essential oils. Exotic nut and fruit oils like sunflower, sweet almond, apricot kernel, and wheat germ or rich, nourishing butters like avocado, shea, and mango that add vital moisturizing properties to the creamy, luxurious lather.

Crafted with care, our soaps leave your skin feeling soft, smooth, and utterly pampered!

Available in 20 fragrances.

Made in solid colors so you can tell them apart from our soap bars in the shower.

## Shampoo Bars

We know that all good things take time. Our Shampoo Bars are no exception. Though this original recipe took a few years to develop, it was worth the wait. Here's why:

- Useable as both body wash and hair shampoo.
- Made with jojoba and other great oils to produce a great lather and soft, clean hair in hard or soft water.
- Has about the same number of washes as a 24-oz. bottle of most shampoos.
- Won't strip natural oils from hair, so most people don't need a conditioner.
- Earth-friendly: 100% biodegradable and 100% natural oils.
- Creates a thick, luxurious lather that rinses out easily and gives body and manageability.
- Great for backpacking and travel.
